# OKAMURA *CP*

*Ergonomic Mesh Chair*

## Office seating for your cutting edge working style

Experience the pleasure of sitting in a chair of the most advanced ergonomic design. Complement and invigorate any office arrangement with a chair design of extraordinary simplicity. Embellish your workspace with a choice of 12 mesh fabric colors. The team of the Italian design firm Giugiaro Design and Okamura Corporation has created a completely new kind of mesh chair. OKAMURA CP Mesh Chair Series uses the world's most advanced seating technology to create office chairs to meet the needs especially for today's cutting edge work spaces.

**Add harmony and creativity to your entire office space.**

Whether used with your work station, conference room, or reception space, OKAMURA CP's simple and sharp design harmonizes perfectly with any kind of work space to create an invigorating ambience.

**Bring extra vitality to your team work areas and  
individuality to your private office.**

OKAMURA CP's innovative and refined design is a triumph of sharpness and simplicity. OKAMURA CP's seamless merging of color and style has a freshness and vitality that effortlessly brings out the character of private work spaces, executive offices, and creative work areas.

CP87AR Brown

CP35AS Dark Blue

Innovative design, rich variation:  
The future of office seating embodied in a simple and innovative design.

## GIUGIARO DESIGN

The famous Italian industrial design firm Giugiaro Design collaborated with Okamura to create the OKAMURA CP series. Besides beautiful styling and superior functionality, OKAMURA CP is particularly distinguished by a simple and sharp design in tune with contemporary needs and taste. OKAMURA CP's synthesis of "cutting-edge Italian design and Japanese technology" will revitalize your office space.

### Giorgetto Giugiaro

Born in Italy in 1938, Giugiaro began designing at age of 17 at the Fiat Style Center. At 21, he joined the Bertone Styling Center. In 1968, he went freelance and established Italdesign Corporation. In 1981, he founded Giugiaro Design. His countless innovative designs have made him one of the world's leading industrial designers.

## ERGONOMIC CONCEPT

### 1. Precision features for comfortable seating

One of the most outstanding features of the OKAMURA CP Series is its exceptional seating comfort.

Newly developed mesh materials and OKAMURA CP's advanced design provides the most comfortable seating for wide range of physique, guaranteeing fatigue-free support and stability even after hours of sitting.

A wide headrest gently supports the back of the head.

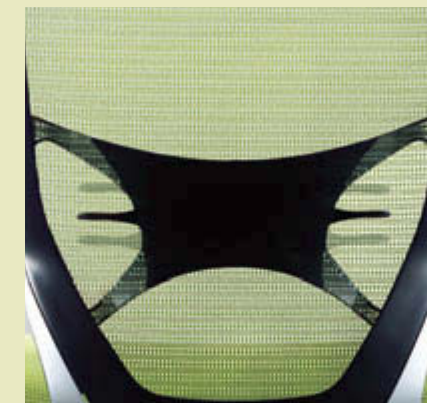

You can add an optional upper garment hanger to your chair, either to the chair's high-back or low-back variation.

OKAMURA CP's comfortable seat uses a newly developed mesh material to lighten fatigue from long hours of work. The seat is also available in cushion type.

A comfortable and transparent mesh back providing comfortable back support is available in a high-back, low-back, as well as an elegant extra-high-back variation.

Featuring a stylish half-transparent design, the lumbar support comfortably conforms to your physique and provides back support. You can adjust the height of the lumbar support up to 50mm.

Casters minimize resistance when you start moving the chair while sitting and provide comfortable seating support. Casters for flooring are also available.

## ERGONOMIC CONCEPT

**2. Naturally comfortable seating and ergonomically smart operation**  
 Comfortable reclining is another remarkable feature that makes Baron such a pleasure to sit in. Baron's unique ankle centered reclining mechanism naturally follows bodily movement even while working at a computer. Ease of operation and easy to use controls enables the user to adjust seat height and reclining angle to his or her natural posture.

Use the lever on the left armrest to either set the recliner to move freely with your body motion or lock it at your favorite angle to a maximum of 23°.

You can adjust the arm pads in 30° increments up to 90° (two inward settings and one outer setting) to give you comfortable elbow support when using a computer or doing other tasks.

You can easily adjust the position of the ratchet-style armrests up or down to a maximum 100 mm.

You can use the lever on the lower right to adjust the seat height up to 130 mm.

Levers within easy reach of hands enables you to easily slide the seat backward and forward up to 50mm.

You can use the tension dial positioned underneath within easy reach of the right hand to finely tune reclining tension to your favorite setting.

**Bring creativity and vitality to your workplace.**

OAMURA CP brings cutting-edge style to conference rooms and individuality and presence to creative workspaces. OKAMURA CP's unsurpassed ergonomics and comfortable and flexible mesh fabrics bring creativity and vitality to every kind of working environment.

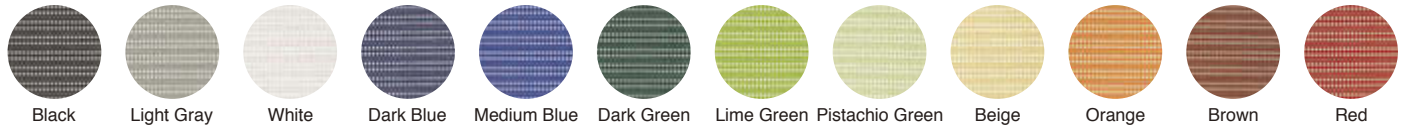

## 12 Colors

Mesh and fabric colors are available in 12 variations offering a broad range of possibilities.

STYLE VARIATIONS

Twelve different mesh and fabric color variations offer a broad range of possibilities. You can select frame and seat combinations and choose the color variations that best fit your workplace needs and individual taste. You can select a high back or a low back as well as an extra-high back variation with attached headrest. You can choose a chair with or without armrests. Guest chairs are also available.
